The more introduction of the Tree tax system is expected to develop the revenue under this head to an appreciable extent. Measures taken in the previous year ought not to be lost sight of but efforts should be made in each district in accordance with a full consideration of local circumstances. The revenue will increase in proportion to the experience gained by the local officers and steps taken by them.

February 1897 calling for opinion
about improving the revenue from
Bagani Toddy.

Has the honor to state that in
this District Bagani is to be found
in the Taluks of Teerthahally, Nagar,
Lagar, Loral and Shikaripur. ~
Toddy from it is drawn only by
a class of people called Halepika.
They are not to be found in all
the above places in sufficient ~
numbers. Hence the difficulty of
developing

developing the revenue from Bagani
toddy. Further those trees are mostly
in thickly wooded parts not easily
accessible. Hence it is not easy
to prepare as required a statement
showing all the trees existing in
Government unoccupied lands. ~
However the Excise Supervisors ~
concerned have been requested to
try and prepare lists of them as
accurate as possible. As soon as they
are received they will be sent. This
Bagani Toddy is generally drunk by
the said Halepika class and as their
number is comparatively small
the chances of revenue therefrom rising
rapidly are small. However the Excise
Supervisors concerned have been asked
to try their best in the matter, as
Kadaros also drink this toddy.
